HOW TO USE IT

- Pick the phrase, trace it and write it once on its page, then write the real card.
- Lay the card or envelope on its guide over a bright window, or pencil the ticks.
- Left-handed: turn the paper a little to the right and rest your hand on a scrap sheet.
- Let the ink dry before you erase any pencil line (Chapter 11).

Print at 100% (Actual size), never "Fit to page", so every template comes out at true size.
Card stock of 65 to 110 lb works for tags and place cards.

Cut on the solid line, 1/8 in inside the dotted envelope edge, and slip it in, bottom and left edges first.

Place cards, guide

Each card is 3 1/2 x 4 in flat and folds to stand 2 in tall. Write on the lower half: tape card and guide to a bright window, or pencil the center tick and baseline from the guide and erase them when the ink is dry.

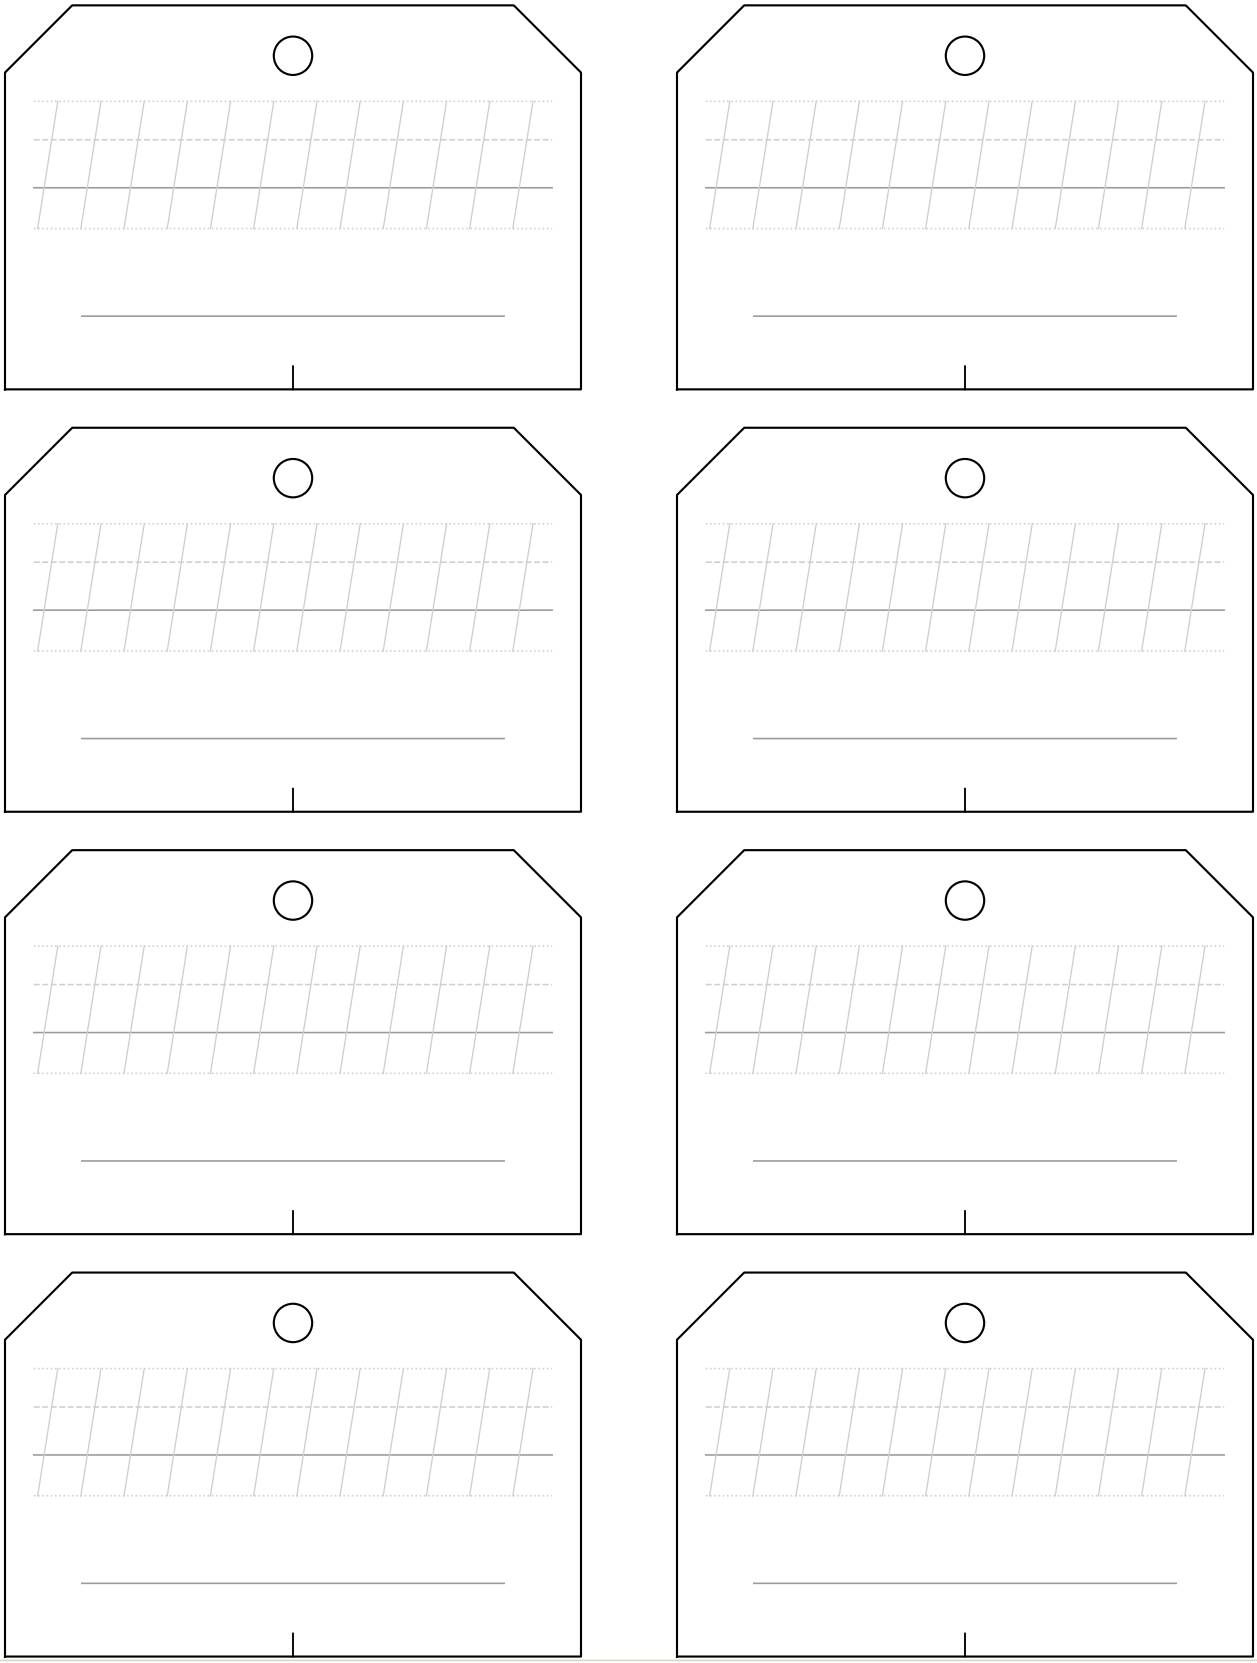

Place cards, cut-out

Print on card stock, cut on the grey outlines and fold on the dashed lines. Write the name over the guide page.

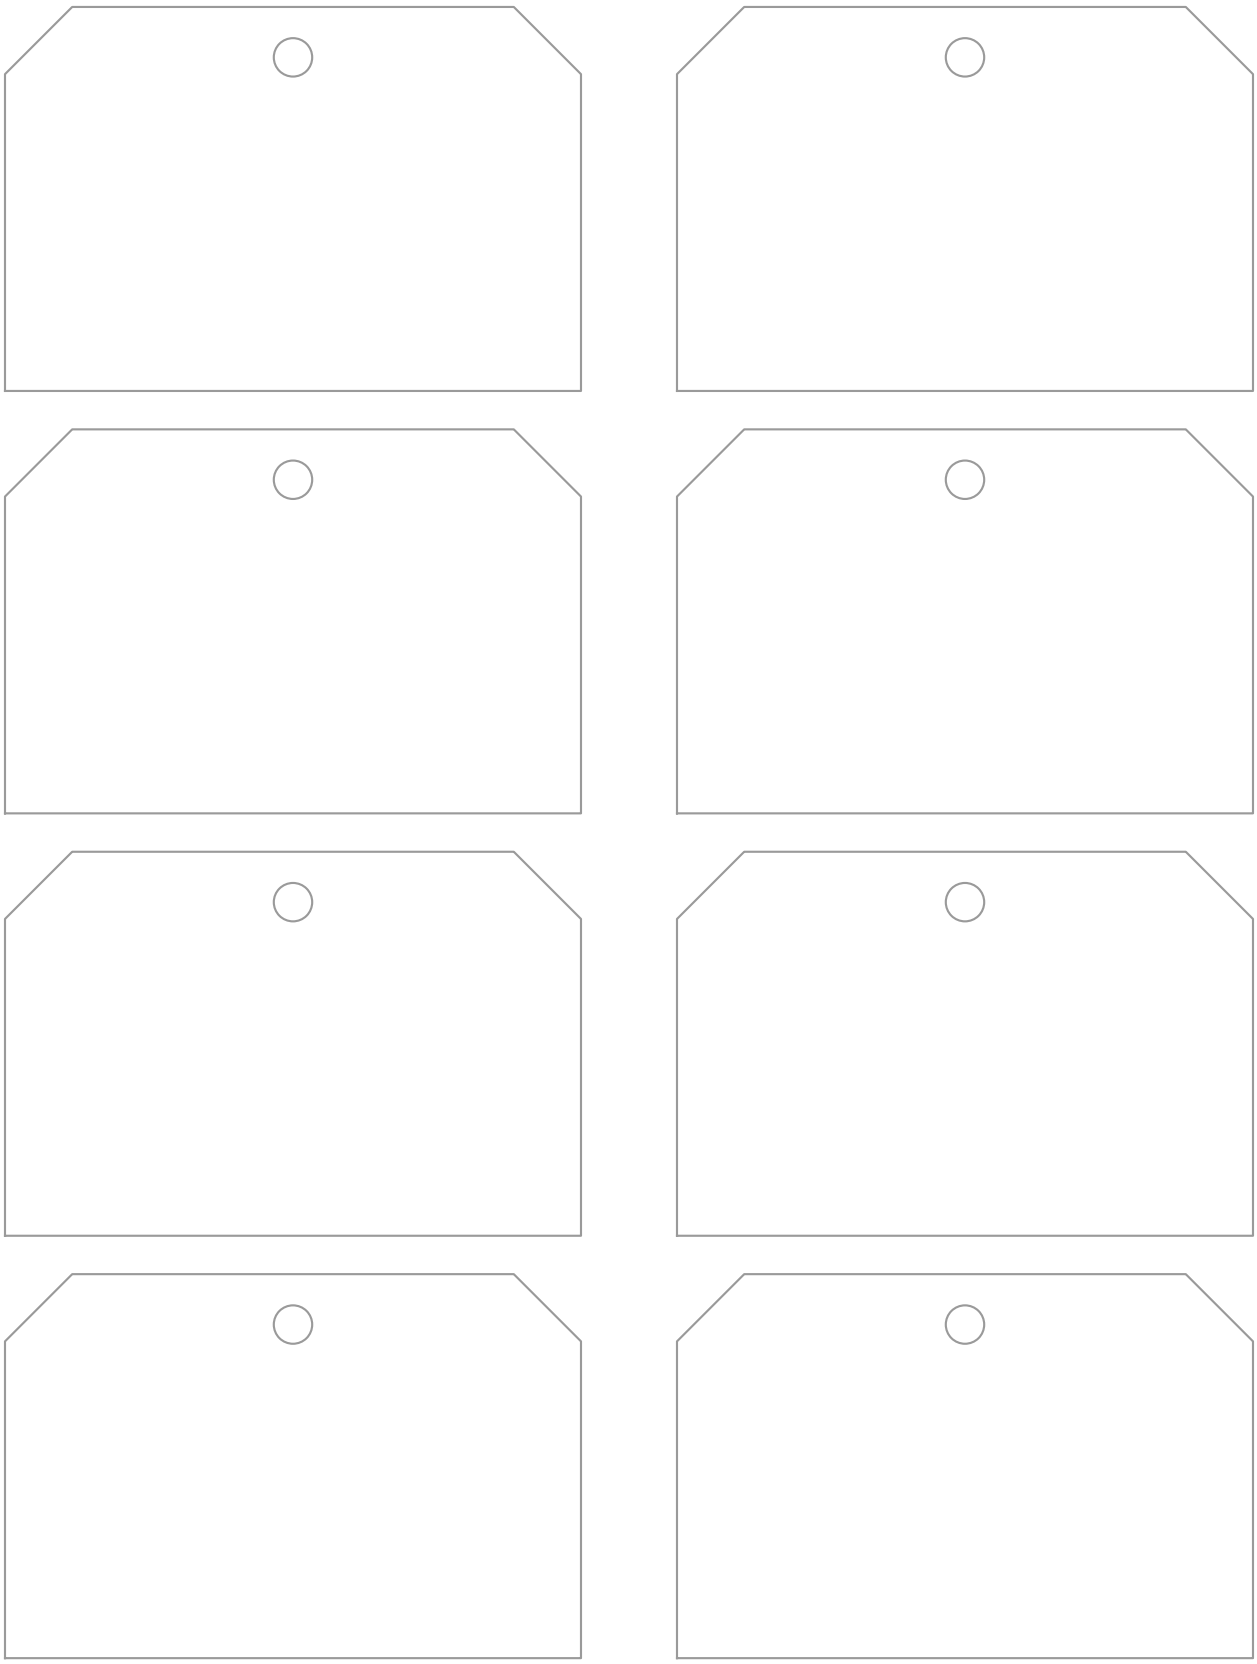

Gift tags, guide

Each tag is 3 x 2 in: the name in the display hand on the upper line, a few words below in the everyday hand. Tape tag and guide to a bright window, or pencil the tick and baseline and erase them when the ink is dry.

Gift tags, cut-out

Print on card stock, cut on the grey outlines and punch the hole. Write the name over the guide page.
